

CRES AMATEUR RADIO CLUB

MEMBERSHIP APPLICATION

You are invited to join the CRES Amateur Radio Club, one of the oldest active amateur radio clubs in the Columbus metropolitan area. Our club was founded in 1962 by and for the ham employees of the Western Electric manufacturing facility on East Broad St. The club is now open to all interested amateur radio operators. We maintain the W8ZPF repeater and conduct a weekly Sunday evening net which is open to all hams. Meetings are held bi-monthly and typically consist of a short business portion followed by a ham-related presentation. We are an ARRL-affiliated club and take part in the League-sponsored Field Day exercise every June. We also have an active Volunteer Exam team that conducts licensing exams three times per year. To learn more about our club, please visit our website at www.w8zpf.org or, if you have a specific question, feel free to email us at cres-info@w8zpf.org or contact us by phone at 614-864-9377.

Full Name _____ Call Sign _____

Address _____ License Class _____

City _____ State _____ Zip Code _____
